

**PRESS RELEASE**

**FANTASTIC FILMS lassoes COWBOYS FOR CHRIST**

**(September 1, 2007)** Fantastic Films International, LLC has signed with CFC Film Ltd. as the exclusive worldwide distributor for **COWBOYS FOR CHRIST**, which is based on the book of the same name.

Cowboys For Christ is written and directed by Robin Hardy. Robin's name is indelibly connected to **The Wicker Man** because it has become such a widely recognized classic. Cowboys for Christ is not a sequel or a prequel to The Wicker Man, but it is a story inhabiting the same territory.

*Robin Hardy quote: why he thinks this film could be a classic like The Wicker Man...*

Christopher Lee has signed on to play Lachlan Morrison, a laird who resembles the late Lord Summerisle that he portrayed in The Wicker Man. In addition to playing Dracula, Christopher was The Man With The Golden Gun and de Rochefort in The Three Musketeers; Count Dooku in Star Wars, Episode II and Saruman the White in The Lord of the Rings trilogy.

*Christopher Lee quote: why he is excited to do this film or to work with Robin Hardy again... "Erotic, romantic, comic and horrific enough to loosen the bowels of a bronze statue"*

COWBOYS FOR CHRIST is set to start production in Scotland in November 2007.

**ABOUT COWBOYS FOR CHRIST:** Gospel singer Beth and her cowboy friend Steve, two virgins promised to each other, set off from Texas to enlighten the Scottish heathens in the ways of Christ. When they are welcomed with joy and elation to the village of Tressock, the border fiefdom of Sir Lachlan Morrison, they assume their hosts simply want to hear more about Jesus. Beguiled by beautiful, sexy Celtic music, in counterpoint to the bluegrass hymns Beth sings to them, she is elected Queen of the May. Meanwhile an increasingly doubtful Steve becomes her consort, destined to be hunted on horseback by the whole community in a ritual he believes to be an innocent rite. Neither of them realize that these honors are being heaped upon them for a purpose that will lead them to a terrifying split end...
